

Organic Baobab Fruit Purée

Introducing the new ready-to-use Baobab fruit purée from Blue Sky Botany; a versatile ingredient especially high in prebiotic dietary fibre, which can be used in a wide variety of product applications.

Produced in partnership with leading ethical and sustainable African producer, Baobab Exports Ltd. Created specifically for food and beverage manufacturers to overcome the hydrophobic nature of Baobab powders, with an ingredient suitable for liquid formulations in multiple product applications.

Product

- **High in dietary fibre** containing over **11g/100g of total dietary fibre**, several times more than other fruit purées
- Recent published research suggests that the **fruit's fibre** is as powerful a **prebiotic** as inulin when added at **half the dosage**
- Packed with **vitamin C, potassium and calcium**. Adds **nutrient value and mouthfeel** to your products
- High in **fruit pectin**
- **No added sugar or preservatives**
- **Pasteurised and aseptically packed** to preserve nutrients and ensure **long shelf life**

Applications

- Bakery
- Beverages, juices, smoothies & cocktails
- Baby & toddler foods
- Breakfast cereals & smoothie bowls
- Confections & chocolates
- Desserts & toppings
- Dressings, sauces & condiments
- Healthy snacking & nutrition bars
- Preserves, jams & compotes
- Sports nutrition & gels
- Yoghurts, ice creams, sorbets & gelatos
